

Cyberlandia - a place
of wonder and
excitement!

In the realm of the digital sea,
Where pixels dance, and browsers flee,
A world of wonder, vast and wide,
E-safety is our trusted guide.

Listen, little ones, gather near,
For tales of caution, loud and clear.
In the land of screens, where
friendships bloom,
We learn to surf, but also to consume.

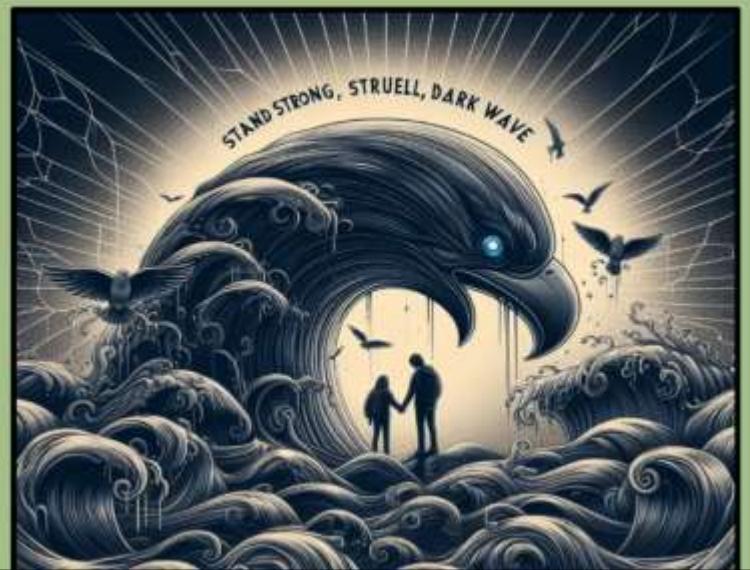

First, my friends, the golden rule.
When online, keep cool and be no fool.
Personal info, lock it tight.
In the cyber sky, like stars so bright.

Strangers online, like shadows cast,
In the cyber forest, moving fast.
Speak to them not, with caution heed,
For safety grows from a careful seed.

Cyberbullying, a cruel, dark wave.
But together, our kindness can save.
Stand strong, stand tall, against the tide.
In the web of respect, let love abide.

Digital footprints, tiny traces.
Leave behind our online spaces.
Think before you post or share,
Be kind, be wise, show that you care.

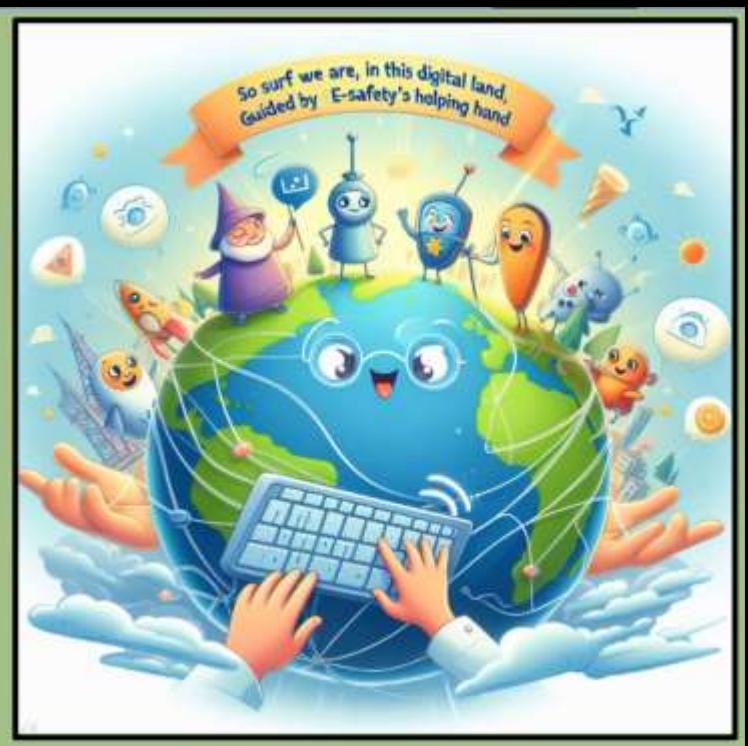

Passwords, keys to the virtual door,
Guard them well, forevermore.
Lock the gate, keep trouble out.
In the fortress of safety, there's no
doubt.

Apps and games, a tempting maze.
Choose wisely, let your instincts blaze.
Permission asked, and parents told.
In the digital garden, let trust unfold.

So here we are, in this digital land,
Guided by e-safety's helping hand.
Let's surf the web with joy and glee,
In this connected world, safe and free.

Dear God,
Help us to recognize the dangers
around us.
Be with us today and everyday in our
work and in our play and in our
online worlds.
Help us to make the right decisions
and learn from our and other's
mistakes.
Teach us to be sensible and please
help us to keep safe.
In the name of the God the Father,
God the Son and God the Holy Spirit.

Amen
