

Homework in Year 6

Holmer C of E Academy

Homework is given out every Friday and expected back in no later than the following Wednesday.

Our homework tasks throughout Key Stage Two are always based on the week's learning. There are a range of questions to help your child share their newly learnt knowledge with you. Each week, children will receive a reading text with some reading questions as well as maths, including arithmetic, problem solving and reasoning questions. We will value your child's homework and enjoy looking at what they have completed. Please spend no longer than 30 minutes completing maths and 30 minutes on reading. As always, reading regularly is also promoted as well as the use of Spag.com and Maths.co.uk.
